# INTRODUCTION

It is our pleasure in introducing ourselves, TRANSWORLDMARK GROUP OF COMPANIES.

TRANSWORLDMARK GROUP business was established since 1975 under the name of WORLDMARK REMOVALS CO servicing major international petroleum based companies for their various moves and transportation. We are proud to say that we are one of the first International Freight Forwarders established in this region with affiliation to major international freight forwarding companies around the globe.

To further enhance our services we then formed TRANSWORLDMARK GROUP and it's first associated company TRANSWORLDMARK FREIGHT (M) SDN BHD, was established and commenced operation in year 1997. We were the pioneer service provider in the field of Air and Sea Freight, Chartering of Vessels, Barges and Tugs, Packing and Removals Door to Door, Shipping, Forwarding, Custom Clearance, Hand Carry for South East Asian Countries, Warehousing and Transportation for Bonded and Non-Bonded movement.

Our extensive experience in the logistic industry for the last 25 years, our group's founder Mr. Krishnan. R made a remarkable decision into providing storage facilities for DG cargo (explosive materials) and built the first storage bunker known as 'The Chartered Ammunition Centre' in Malaysia, located in BATU ARANG. Our Bunker facility main users are from the oil & gas sector. In addition since most of the goods are exempted from the customs duties, the bunker has been granted 'Public Bonded Warehouse' status by the Royal Custom Department of Malaysia. Whereby the explosive materials can be moved from the point of entry by bonded trucks and the cargo can be stored at the bunker in BATU ARANG without paying any Customs duties taxes. We are now specializing in Logistic Control of Oilwell Explosives, Radioactive and Hazardous Cargo. We even have proven track record moving complicated and restricted defence equipments.
